

December 2021, Issue #21

English Version

Valard Construction was selected by Wataynikaneyap Power to provide engineering, procurement and construction (EPC) solutions for the Wataynikaneyap Power Transmission Project in Northwestern Ontario, Canada.

The scope of work on the Project consists of EPC services for more than 1,600 kilometres of transmission and distribution infrastructure ranging in voltage from 25 kV to 230 kV and 22 substations. Valard created this newsletter to provide regular updates on construction activities for the 24 First Nation owner communities.

Three-Month Lookahead – Field Activities
Proposed schedule as of December 15, 2021
Period: December 1, 2021 to February 28, 2022
Note: Subject to change based on field conditions.

Group 2 – Transmission Lines

Activity		Detail
 <p>Materials to construct camps being moved by heavy machinery</p>	<p>Camp Mobilization and/or Installation</p>	<ul style="list-style-type: none"> • Pickle Lake operational as of Winter 2020 • North Caribou Lake Camp operational as of Fall 2021 • Kingfisher Lake Camp operational as of Winter 2021 • Muskrat Dam Camp operational • Bearskin Lake Camp under construction
 <p>Heavy machinery for geotechnical investigations</p>	<p>Survey</p>	<ul style="list-style-type: none"> • Set survey control points (Starting activity of all survey operations) • Flagging Right-of-Way (ROW) clearing limits • Measure existing transmission line heights • Locate existing underground utilities • Work area <ul style="list-style-type: none"> * Pickle Lake to Pipestone * Pipestone to Kingfisher Lake First Nation * Pipestone to North Caribou Lake First Nation

BOOTS ON THE GROUND—Locally hired crew members tell us what working on the Wataynikaneyap Power Transmission Project means to them!

THE WATAY PROJECT HAS BEEN AN OPPORTUNITY FOR ME TO GET INTO A CAREER.

Camron Caouette, Lac des Milles Lacs First Nation

I started my career with Valard assembling towers in July 2020. In February 2021 I was moved up to an erection crew where we erect and climb self support towers with the assistance of a crane. We also catch and place tangent towers and wings that are flown in by helicopter. Since moving from assembly to erection I have been accepted into an apprenticeship with Valard.

My goals with Valard at this point are to complete Touch and Go Training with the helicopter. This is when you learn to work directly off the side of the helicopter while it is in the air. I want to accumulate enough working hours to pursue the schooling to become a Journeyman Lineman and complete my apprenticeship.

The Watay project has been an opportunity for me to get into a career I wouldn't have considered until I started working for Valard. I like the excitement of working with helicopters and working at heights; It's a rush and it's not something just anyone can do.

The people I work with are awesome. Everyone on the crew helps each other to improve and I have learned a lot from the people I work around. It makes long shifts easy when you work with people you get along with.

I feel good about this project because it opens up job opportunities for so many local people in the surrounding communities. I look forward to working on the Watay project until it is complete.

Monthly Project Newsletter

Valard is engaging with Participating First Nations to:

- * Work with community and working groups for open lines of communication for COVID-19 updates with regards to travel and Community access directives
- * Work with communities to identify camp locations and services available to support work camps
- * Facilitate and coordinate opportunities for employment and procurement of goods and services with communities and working groups
- * Provide notification of encounters with sensitive wildlife such as caribou sightings to communities near the encounter
- * Provide notification of field work associated with monitoring caribou permanent survey plots throughout the project area
- * Provide the Chief and Council with any additional work packages and maps in their Homeland area, includes: Permit to Take Water, Helicopter Pads and any additional camp locations if required
- * Provided Power Mobile Equipment (PME) training for employees

Health and Safety

- * **Valard is following the most up to date medical advice provided by federal and provincial government in its own measures to help limit the spread of Covid-19.**
- * Ongoing Covid-19 screening program, camp inspections, program audits, response drills and Valard Covid-19 Vaccination program for eligible employees
- * Hazard analysis and control planning every day
- * Development, implementation and monitoring of safe work procedures
- * Project onboarding, orientation and training/development of workers and subcontractors
- * Emergency preparedness and planning, mock emergency drills completed
- * Joint Health and Safety Committee Involvement
- * Promotion of Project's Alcohol & Drug Policy, Maintenance Support Security Program and Employee Assistance Program.
- * Security Protocols implementation and monitoring
- * Fall Protection and Rescue Planning for tower climbing Best Practices

Employment Opportunities

- * Valard Construction invites members of the Participating First Nations to apply for the following positions.

Administrative Assistant

Assemblers

Burn Crews

Class A Driver

Community Support Partner

Drafting Technician

Emergency Medical Responder

Environmental Monitor

Excavator Operator

Foundations Labourer

Fuel Truck Driver

General Foreperson/Construction Supervisor

Heavy Duty Technician

Journeyman Automotive Service Technician

Prep/Ground Work Subforeperson

Primary Care Paramedic

Project Assistant

Project Field QC

Project Safety Admin
