English Version

Valard Construction was selected by Wataynikaneyap Power to provide engineering, procurement and construction (EPC) solutions for the Wataynikaneyap Power Transmission Project in Northwestern Ontario, Canada.

The scope of work on the Project consists of EPC services for more than 1,600 kilometres of transmission and distribution infrastructure ranging in voltage from 25 kV to 230 kV and 22 substations. Valard created this newsletter to provide regular updates on construction activities for the 24 First Nation owner communities.

Three-Month Lookahead – Field Activities Proposed schedule as of October 15, 2022 Period: October 1, 2022 to December 31, 2022 Note: Subject to change based on field conditions. * Yellow outline indicates work areas.

Group 3 – Transmission Lines

Activity		Detail		
Knox Camp	Camp Mobilization and/or Installation	 Junction operational as of January 2021 North Spirit Lake and Deer Lake Camp open mid Oct 2021 to support substations Poplar Hill Camp opened Knox Lake Camp closed Sandy Lake Camp closed 		
Survey worker	Survey	 Set survey control points (Starting activity of all survey operations) Measure existing transmission line heights Locate existing underground utilities Work area Red Lake, Deer Lake First Nation to North Spirit Lake First Nation and North Spirit Lake First Nation to Sandy Lake First Nation
