

April 2023, Issue #37

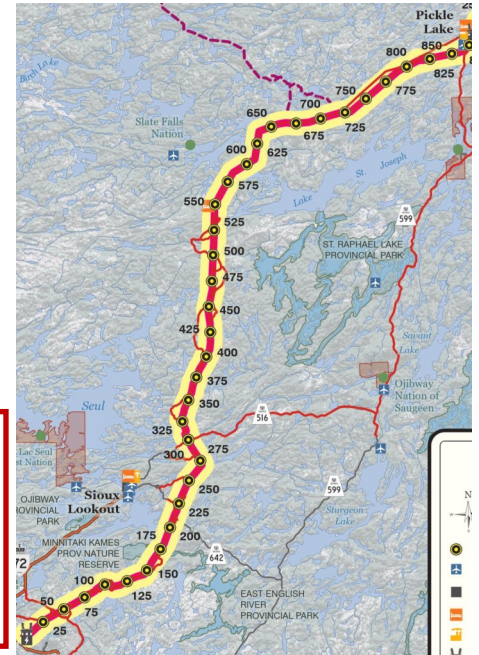

English Version

Valard Construction was selected by Wataynikanepay Power to provide engineering, procurement and construction (EPC) solutions for the Wataynikanepay Power Transmission Project in Northwestern Ontario, Canada.

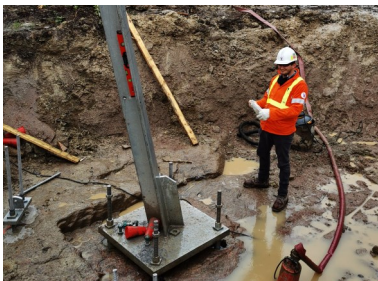

The scope of work on the Project consists of EPC services for more than 1,600 kilometres of transmission and distribution infrastructure ranging in voltage from 25 kV to 230 kV and 22 substations. Valard created this newsletter to provide regular updates on construction activities for the 24 First Nation owner communities.

* Yellow outline indicates work areas.

NATIONAL DAY OF MOURNING - APRIL 28, 2023

Crew members and employees on the Wataynikaneyap Power Transmission Project work through challenging terrain and weather conditions through different scopes of construction on the project. Maintaining proper safety protocols and procedures is a top priority and concern to ensure that all employees are safe and following best practices on the project.

April 28th, 2023 was the National Day of Mourning, dedicated to all those who have lost their lives, suffered injury or illness on the job, or a work-related tragedy. It is a day to remember the lives lost or injured, and renew Valard's continued commitment to prevention and safety. Every worker has the right to return home safe and sound at the end of each workday.
