

March 2023, Issue #36

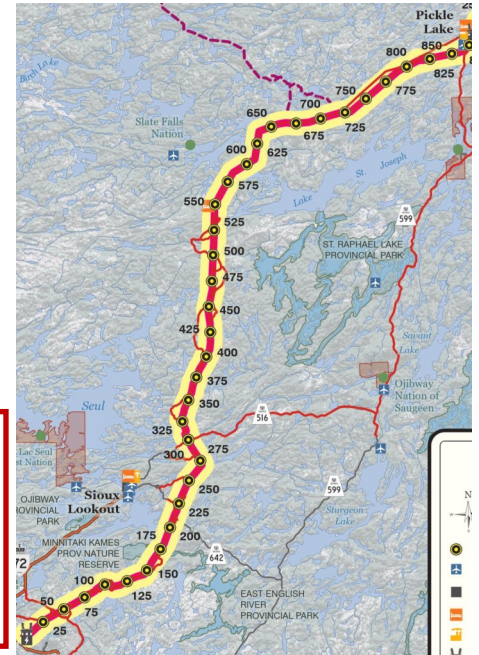

English Version

Valard Construction was selected by Wataynikanepap Power to provide engineering, procurement and construction (EPC) solutions for the Wataynikanepap Power Transmission Project in Northwestern Ontario, Canada.

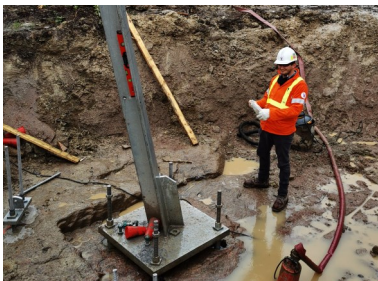

The scope of work on the Project consists of EPC services for more than 1,600 kilometres of transmission and distribution infrastructure ranging in voltage from 25 kV to 230 kV and 22 substations. Valard created this newsletter to provide regular updates on construction activities for the 24 First Nation owner communities.

* Yellow outline indicates work areas.

PROJECT MILESTONE! - HEAVY EQUIPMENT HAULING

Valard celebrated another major project milestone on the Wataynikaneyap Transmission Line Project in the month of March 2023! Pictured above is the delivery of the last reactor and control building to the Poplar Hill Substation (Station R) on March 21st, 2023. With this delivery, Valard has completed all heavy equipment hauling for the Wataynikaneyap Project substations.

Valard thanks each and every employee; subcontractor; and the Project's 24 First Nation owners who worked hard to make this milestone happen and looks forward to achieving many more major accomplishments as the project continues to progress.
